PAST COACHING FEEDBACK FROM CAPSTONE CLIENTS

Future Leadership Capability Coaching

“I was going through a phase in life where I was internally seeking clarity with my own vision for my future. The idea of a Coach was something that was toying in my mind for a really long time. I just knew that Sujaya was the one I should turn to for some professional help around rewiring my own mindset and outlook!

It took just a few sessions with her for me to realise the immense good that it was doing, in helping me with my own clarity of thought. One’s mind is a complex web and just keeping it in check and giving it renewed direction is almost like a metamorphosis.

Over time, I realised that I was changing in many ways, and it was noticeable not just for me but for others around me too.”
